

variable -

coefficient -

Simplify the expression by combining like terms.

$$6x + 11x$$

Like terms

Simplify the expression by combining like terms.

$$-3a + 7a$$

Simplify the expression by combining like terms.

$$4(x-3)-6x$$

Simplify the expression by combining like terms.

$$6x^2-2(x-2x^2)$$

Simplify the expression by combining like terms.

$$10x+6x+y-5x$$

Simplify the expression by combining like terms.

$$7x+3x-3y-8x$$
