

Straight Commision

Numeric Response

1. A commission is an amount of money that you are paid for selling a product or service. Your commission rate may be a specified amount of money for each sale or it may be a percent of the total value of your sales. A graduated commission offers a different rate of commission for each of several levels of sales.

$$\text{Commission} = \text{commission_Rate} \times \text{Total_Sales}$$

$$\text{Total_Graduated_Commission} = \text{Sum_of_Commissions_for_All_Levels_of_Sales}$$

Dora sells windows. Her commission is 30.57 percent of the selling price of every item she sells. What is her commission when she sells windows totaling \$762.90? Express your answer as a dollar amount and round to the nearest cent.

2. A commission is an amount of money that you are paid for selling a product or service. Your commission rate may be a specified amount of money for each sale or it may be a percent of the total value of your sales. A graduated commission offers a different rate of commission for each of several levels of sales.

$$\text{Commission} = \text{commission_Rate} \times \text{Total_Sales}$$

$$\text{Total_Graduated_Commission} = \text{Sum_of_Commissions_for_All_Levels_of_Sales}$$
