

GDP Gross Domestic Product**Numeric Response**

1. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Real GDP	Per Capita GDP
1	\$207,181,944	8	12,284		16,866
2	273,743,225	7	18,977		14,425
3	160,507,440	7.4	11,733		13,680
4	237,730,829	6.2	12,719		18,691

What is the number of the country with a real GDP of \$222,991,517,602?

2. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Real GDP	Per Capita GDP
1	\$91,328,328	3.1	18,936		4,823
2	341,259,982	3.5	19,187		17,786
3	18,980,052	3.4	1,146		16,562
4	14,669,197	6.3	5,113		2,869

What is the number of the country with a real GDP of \$88,497,149,832?

3. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		2	7,991	7,195
2		3.1	9,709	14,754
3		6.2	3,763	18,085
4		6.9	7,523	5,321

What is the number of the country with a GDP of \$68,053,855,000?

4. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		5.9	4,307	6,532
2		5.3	192	1,281
3		2.9	12,456	10,938
4		5.7	15,783	18,553

What is the number of the country with a GDP of \$292,821,999,000?

5. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		7	8,390	17,392
2		3.6	4,534	19,765
3		4.4	14,313	5,158
4		2.1	6,971	4,132

What is the number of the country with a GDP of \$28,804,172,000?

6. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$225,051,780	7.4	13,515	
2	9,441,828	5.2	7,596	
3	69,450,999	3.7	16,707	
4	97,915,797	6.9	9,387	

What is the number of the country with a per capita GDP of \$16,652?

7. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$271,926,652	4.8	18,211	
2	66,481,500	2.5	3,772	
3	53,412,768	7.8	5,826	
4	59,097,752	7.5	15,751	

What is the number of the country with a per capita GDP of \$14,932?

8. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$215,219,394	5.1	17,667	
2	45,351,644	4	2,876	
3	75,166,596	4.7	5,812	
4	81,356,643	4.5	12,879	

What is the number of the country with a per capita GDP of \$6,317?
