

GDP Gross Domestic Product**Numeric Response**

1. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Real GDP	Per Capita GDP
1	\$148,842,033	7.7	18,301		8,133
2	53,712,516	2.4	3,324		16,159
3	26,385,074	6.7	16,267		1,622
4	324,838,836	3.3	17,538		18,522

What is the number of the country with a real GDP of \$52,423,415,616?

2. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Real GDP	Per Capita GDP
1	\$43,909,341	5.9	3,189		13,769
2	184,303,278	2.1	11,889		15,502
3	21,061,936	3.4	5,362		3,928
4	223,790,264	2.6	15,256		14,669

What is the number of the country with a real GDP of \$217,971,717,136?

3. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		3.8	14,267	18,619
2		6.1	5,933	2,635
3		6.8	7,523	6,986
4		4.3	2,660	12,203

What is the number of the country with a GDP of \$32,459,980,000?

4. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		7.1	16,133	11,050
2		5.9	15,273	16,125
3		6.4	485	10,172
4		2.4	9,978	2,064

What is the number of the country with a GDP of \$246,277,125,000?

5. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP	Inflation Rate	Population (in thousands)	Per Capita GDP
1		3.5	9,471	18,453
2		3.8	19,951	7,546
3		6.3	17,414	19,682
4		4.8	9,686	9,593

What is the number of the country with a GDP of \$150,550,246,000?

6. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$217,692,618	3.2	17,498	
2	14,429,727	2.2	2,067	
3	30,970,260	5.5	6,282	
4	9,447,879	6.3	1,533	

What is the number of the country with a per capita GDP of \$12,441?

7. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$54,544,840	3.3	8,330	
2	148,550,897	4.6	19,921	
3	94,579,774	6	11,177	
4	125,174,610	7.2	8,355	

What is the number of the country with a per capita GDP of \$14,982?

8. GDP is known as gross domestic product. GDP is an estimation of all goods and services produced by a country during one year. GDP that includes inflation is called the real GDP or adjusted GDP.

$$\text{Real GDP} = \text{GDP} - (\text{Inflation Rate} \times \text{GDP})$$

$$\text{Per_Capita_GDP} = \frac{\text{GDP}}{\text{Population}}$$

Country	GDP (in thousands)	Inflation Rate	Population (in thousands)	Per Capita GDP
1	\$191,016,328	5.8	12,394	
2	178,088,500	5.1	17,650	
3	31,343,340	2	4,569	
4	118,999,296	4.6	19,728	

What is the number of the country with a per capita GDP of \$15,412?
