

The intercept form of a quadratic function is:

Blank area for writing the answer to the question above.

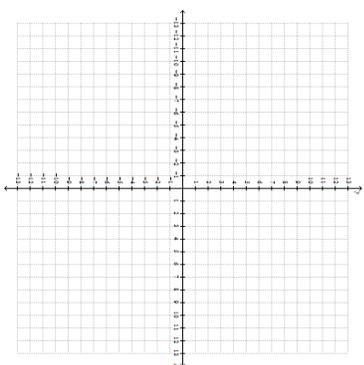

The intercept form of a quadratic function is:

Blank area for writing the answer to the question above.

Graph the following quadratic function:
 $y = -3(x - 5)(x - 8)$

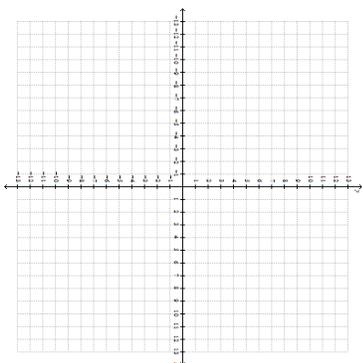

Graph the following quadratic function:
 $y = -3(x + 3)(x + 5)$

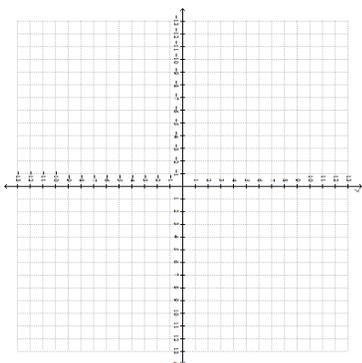

Graph the following quadratic function:

$$y = 3(x + 6)(x + 7)$$

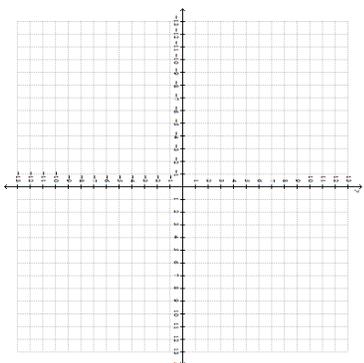

Graph the following quadratic function:

$$y = -2(x - 1)(x - 5)$$

Graph the following quadratic function:

$$y = 3(x + 4)(x + 0)$$

Graph the following quadratic function:

$$y = 2(x + 0)(x + 5)$$
