

Sketch the graph of each line.

1) $x = -5$

2) $7x - 3y = 15$

3) $5x + 3y = -3$

4) $6x - y = -3$

5) $x - 4y = -12$

6) $y = -3$

7) $7x - 4y = -20$

8) $2x - y = 4$

9) $3x + 4y = 12$

10) $7x + y = 2$

11) $x - y = 3$

12) $5x + y = 3$
