

**Travel Expenses****Numeric Response**

1. Below is a chart of the travel expenses for five, company employees. The cost per mile for the company is \$0.316. They each stayed for 4 nights at a hotel. Calculate the total expenses for M. Knight. Remember to include cost of transportation, cost of lodging, and cost of meals. Round your answer to the nearest cent.

| Name        | Miles traveled | Meals (total) | Hotel (per night) |
|-------------|----------------|---------------|-------------------|
| L. Columbo  | 265.6          | \$91.08       | \$106.06          |
| J. Rockford | 1,305.3        | 132.24        | 85.12             |
| M. Knight   | 337.6          | 178.20        | 103.73            |
| C. Finley   | 1,349.2        | 95.76         | 85.81             |
| B. Duke     | 2,114.5        | 84.48         | 101.86            |

2. Below is a chart of the travel expenses for five, company employees. The cost per mile for the company is \$0.376. They each stayed for 5 nights at a hotel. Calculate the total expenses for J. Rockford. Remember to include cost of transportation, cost of lodging, and cost of meals. Round your answer to the nearest cent.

| Name        | Miles traveled | Meals (total) | Hotel (per night) |
|-------------|----------------|---------------|-------------------|
| L. Columbo  | 245            | \$130.95      | \$94.23           |
| J. Rockford | 1,429.2        | 123.00        | 89.18             |
| M. Knight   | 334.3          | 226.65        | 99.14             |
| C. Finley   | 1,259.5        | 183.45        | 102.00            |
| B. Duke     | 2,363.1        | 118.50        | 98.06             |

3. L. Columbo is an assistant. This month his travel expenses include: airfare of \$2,643, taxi fares of \$73.60, meals of \$365.29, hotel stays of \$654, and miscellaneous of \$95.70. What is the total travel expense for L. Columbo? Round your answer to the nearest cent.
4. C. Finley is an assistant. This month his travel expenses include: airfare of \$2,727, taxi fares of \$67.97, meals of \$345.21, hotel stays of \$790, and miscellaneous of \$75.61. What is the total travel expense for C. Finley? Round your answer to the nearest cent.
5. L. Columbo is a vice-president. This month his travel expenses include: airfare of \$2,878, taxi fares of \$87.83, meals of \$268.10, hotel stays of \$553, and miscellaneous of \$70.34. What is the total travel expense for L. Columbo? Round your answer to the nearest cent.
6. L. Columbo is a programmer. This month his travel expenses include: airfare of \$2,573, taxi fares of \$84.44, meals of \$203.31, hotel stays of \$108 per night for four nights, and miscellaneous of \$80.02. What is the total travel expense for L. Columbo? Round your answer to the nearest cent.
7. L. Columbo is a clerk. This month his travel expenses include: airfare of \$2,342, taxi fares of \$53.19, meals of \$372.43, hotel stays of \$107 per night for five nights, and miscellaneous of \$64.28. What is the total travel expense for L. Columbo? Round your answer to the nearest cent.
8. B. Duke is a programmer. This month his travel expenses include: airfare of \$2,378, taxi fares of \$53.36, meals of \$303.87, hotel stays of \$98 per night for seven nights, and miscellaneous of \$61.57. What is the total travel expense for B. Duke? Round your answer to the nearest cent.
